Getting Started with AWS Projects

B Bhupendra Jogi USA

Why AWS?

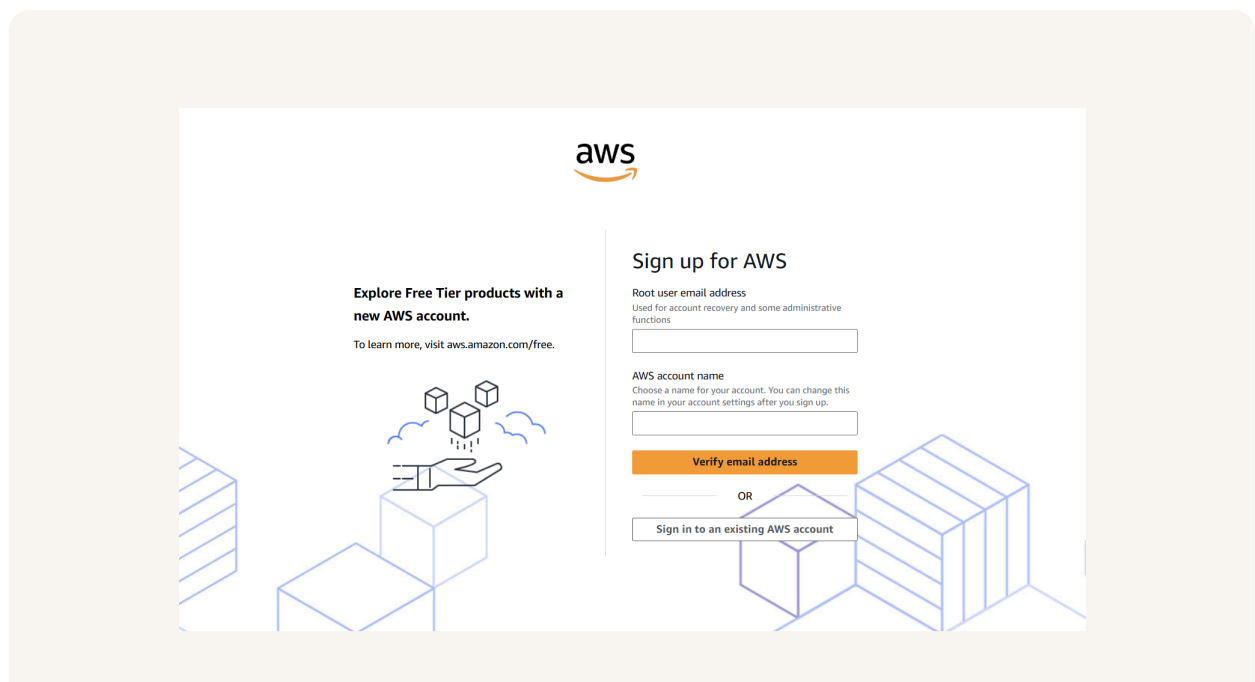

I want to excel in my field and earn money .

My Project Goals

i have lots of other things to do like college stuuf and alll so i will try to finish 2 projects in 7 days..

You might be wondering... what's AWS?

Cloud computing with Amazon Web Services (AWS) is like renting a powerful computer via the internet. Businesses (and engineers like you!) use AWS services to store files, run applications, analyse data and do much more.

How I'll reach my goals

I'll make learning fun and rewarding by finishing projects on time.

I'll make time for doing projects by 3 days/week.

To rest and recharge, I will take regular breaks and have some food and listen to some music.
